- Only one person per household or business permitted to shop in person at a time.
- Customers asked to limit shopping in person (2 - 3 times a week).
- No children under 16 may enter the store to shop.
- The number of people entering the store will be limited by staff, to ensure social distancing is maintained.
- Directional lines to create a one-way flow of traffic must be obeyed, to assist in reducing customers face to face interactions.
- Customers who are sick are asked not to shop in person.
- Reusable bags are not welcome at this time ,to reduce potential point of contact; plastic bags are provided for free.

These rules are in place to follow the provincial requirements of social distancing within our store. They also ensure that each community member has the opportunity to shop in person, during our reduced Covid-19 hours of operation.

We continue to offer online shopping for those who choose to not enter the store.

PLEASE BE AWARE :
